

Our progressive systems offer the best combination of performance, energy efficiency, and value

MCS has been in business for over 50 years promoting, applying and selling commercial and industrial HVAC equipment. Our sales engineers are experts in the application of the products that we sell. Along with our support staff, we focus on customer service, project tracking and after sales support to provide the best possible outcomes for our customers.

The business philosophy of MCS is quite simple. We consider ourselves to be customer representatives as well as manufacturer's representatives. Our customers are the designers and builders of buildings and industrial processes. Our goal is to provide technical assistance, project control accuracy— from order to installation and beyond—as well as competent, prompt service when required. We endeavor to represent manufacturers of the highest quality equipment whose business doctrine coincides with ours.

Please visit our website (www.mcsmms.com) for up to date information from our manufacturers, project success stories and listings of current products that we have in stock. Contact us to set up sales or service seminars on any of the products that authorized service and start-up for all the manufacturers that we represent.

Syracuse Office

MODULAR COMFORT SYSTEMS

HVAC EQUIPMENT • PARTS • SOLUTIONS

www.mcsmms.com

- Chillers
- Air Handlers
- Rooftop Systems
- Unit Ventilators
- Coils
- Fan Coils
- VRV
- Ductless Splits
- WS Heat Pumps
- Condensing Units

Side access filter housings and high efficiency filtration

Cooling towers, evaporative condensers

Vertical and horizontal classroom units

Air and water source heat

Variable frequency drives

Commercial & industrial chimney and exhaust systems

Geothermal/specialty heat pump systems

VAV terminal products and fan coils, air handling

Customized packaged central plants

Boiler products – pulse, tubeless, thermal fluid heaters

Custom air handling

Heat exchange systems

Steam and hot water boilers

Packaged terminal AC units, water source heat pumps

Fans, utility sets, and gravity vents

Exhaust Systems

Modular, heat recovery, and custom chillers

Chillers, high density rack & closed loop cooling

Balancing valves, valve packages, hose kits

Dedicated outdoor air systems (DOAS)

Air to air heat recovery

Pool Dehumidifiers & Conditioning

Radiant ceiling systems, metal ceilings

Terminal heat transfer units – fin tube radiation

Energy recovery units/ Air handling

Air to air heat recovery

Innovative equipment for hot water

Air to air heat recovery
