

## Our progressive systems offer the best combination of performance, energy efficiency, and value

MCS has been in business for over 50 years promoting, applying, and selling commercial and industrial HVAC equipment. Our sales engineers are experts in the application of the products that we sell. Along with our support staff, we focus on customer service, project tracking and after sales support to provide the best possible outcomes for our customers.

The business philosophy of MCS is quite simple. We consider ourselves to be customer representatives as well as manufacturer's representatives. Our customers are the designers and builders of buildings and industrial processes. Our goal is to provide technical assistance, project control accuracy— from order to installation and beyond—as well as competent, prompt service when required. We endeavor to represent manufacturers of the highest quality equipment whose business doctrine coincides with ours.

Please visit our website ([www.mcsmms.com](http://www.mcsmms.com)) for up to date information from our manufacturers, project success stories, and listings of current products that we have in stock. Contact us to set up sales or service seminars on any of the products that we market. Modular Mechanical Service (our sister company) provides factory authorized service and start-up for all the manufacturers that we represent.

## DAIKIN

- Chillers
- Air Handlers
- Rooftop Systems
- Unit Ventilators
- Coils
- Fan Coils
- VRV
- Ductless Splits
- WS Heat Pumps
- Condensing Units

Boiler products – pulse, tubeless, thermal fluid heaters

Air to air heat recovery

Custom air handling

Air to air heat recovery

Pool Dehumidifiers & Conditioning

Air to air heat recovery

Cooling towers, evaporative condensers

Energy recovery units/Air handling

Heat exchange systems

Chillers, high density rack & closed loop cooling

Vertical and horizontal classroom units

Customized packaged central plants

Geothermal/ specialty heat pump systems

Packaged terminal AC units, water source heat pumps

Terminal heat transfer units – fin tube radiation

Air and water source heat

VAV terminal products and fan coils, air handling

Variable frequency drives

Innovative equipment for hot water

Fans, utility sets, and gravity vents

Steam and hot water boilers

Exhaust Systems

Ventilation, heating/cooling, and climate optimization

Commercial & industrial chimney and exhaust systems

Modular, heat recovery, and custom chillers

Dedicated outdoor air systems (DOAS)

Commercial and industrial Coils
