

Our progressive systems offer the best combination of performance, energy efficiency, and value

MCS has been in business for over 55 years promoting, applying, and selling commercial and industrial HVAC equipment. Our sales engineers are experts in the application of the products that we sell. Along with our support staff, we focus on customer service, project tracking and after sales support to provide the best possible outcomes for our customers.

The business philosophy of MCS is quite simple. We consider ourselves to be customer representatives as well as manufacturer's representatives. Our customers are the designers and builders of buildings and industrial processes. Our goal is to provide technical assistance, project control accuracy—from order to installation and beyond—as well as competent, prompt service when required. We endeavor to represent manufacturers of the highest quality equipment whose business doctrine coincides with ours.

Please visit our website (www.mcsms.com) for up to date information from our manufacturers, project success stories, and listings of current products that we have in stock. Contact us to set up sales or service seminars on any of the products that we market. MCS also provides factory authorized service and start-up for all the manufacturers that we represent.

- Chillers
- Coils/Fan Coils
- Roof Top Systems
- Air Handlers
- Cold Climate Heat Pump Systems
- Unit Ventilators
- VRV
- Mini Splits (Single/Multi-Zone)
- WS Heat Pumps
- Furnaces
- Light Commercial Roof Top Units
- Condensing Units
- Unitary Condensers & Heat Pumps

Custom air handling

 Cooling towers,
evaporative
condensers

 Boiler products –
pulse, tubeless,
thermal fluid heaters

 Air Rotation
and Gas Fired
Heating

Custom Air Handling

 Steam and hot
water boilers

 Chillers, high
density rack &
closed loop cooling

 Pool
Dehumidifiers &
Conditioning

 Exhaust
Systems

 Modular, heat
recovery, and
custom chillers

 Air and water
source heat

 Commercial
and industrial
Coils

 Air to air heat
recovery

 Geothermal/
specialty heat
pump systems

 Variable
frequency drives

 Air to air heat
recovery

 VAV terminal
products and fan
coils, air handling

 Vertical/Horizontal
Unit Ventilators,
Ceiling Cassettes,
Make-Up Air System,
Duct Furnaces

 Ventilation,
heating/cooling, and
climate optimization

 Packaged terminal
AC units, water
source heat pumps

 Air to air heat
recovery

 Dedicated
outdoor air
systems (DOAS)

 Terminal heat
transfer units –
fin tube radiation

 Side access filter
housings and high
efficiency filtration
